Introduction

HOSIDEN DIN connectors are supplied to electronic equipment manufacturers both in Japan and overseas and are very well accepted because of high quality , a variety of models available, and high reliability.

In order to satisfy customer requirements, we contrive to realize mass production of our products. And we provide, besides various plug and sockets (standard : 3 to 8P) , Plug and sockets for antenna and inline and insulating caps. Also, for meeting every possible applications and purposes, various products for printed circuit board and lead wiring, with switches and locking mechanisms and further with quick mounting mechanism on panel, those can be available.

	Plug	Socket
Insulation Resistance	100MΩ min. at 250V DC	100MΩ min. at 250V DC
Dielectric Strength	250V AC for 1 minute	250V AC for 1 minute
Current Capacity	1A 100V AC , 1A 12V DC	—
Contact Resistance	—	30mΩ max.

The shap of pin entrance () of DIN sockets may be different from that of actual product.

Uses	Audio-video equipment Precision machine Electronic music instrument and so forth.
------	--

Insulating Caps for DIN Connectors

Insulating Caps can be used for dust protection and protection of ICs from damage caused by static electricity from outside of electronic equipment.

TCP9426-01-010

Unit: mm

This is suitable for TCS4000 series and metal cover type sockets

For Example

TCP13□□-715□67
