

# Hands-free Microphones

Hosiden Besson has designed and manufactured a complete range of hands-free microphones used by Original Equipment Manufacturers, (OEM).

Commercially equivalent microphones, used in many OEM applications, are now available in smaller quantities due to a constantly changing marketplace. They are available with terminations to meet most requirements. Technology available includes directional, omni-directional and amplified with anti-vibration mountings, wind and noise shields and GSM noise rejection filters. Units also have RFI de-coupling.

Hosiden Besson will continue to offer this type of product alongside our traditional expertise of designing microphone technology which utilises our in-house capabilities.

● Alcatel,  
Ericsson, Kyocera,  
Motorola, Nokia  
and Siemens types  
available (plus others)

● Uni and omni-directional,  
amplified and  
un-amplified models

● Full design and development facility

● Various cables  
and terminations available

# Hands-free Microphones

## product data sheet

### Specification

Company	Kit Description	Speaker Type
<b>Alcatel</b>	BE	Un-amplified Type 372U with special mount
<b>Kyocera</b>	V1, K1, K3	Un-amplified Type 372U with anti-vibration mount
